PROJECTS

JARVISXX VOICE ASSISTANT | Live Link |
React JS | Tailwind CSS

- Jarvisxx, a **Voice-Activated Assistant** using **React JS**, **JavaScript Speech Recognition API**, and **Voice Commands** to open websites like **YouTube**, **WhatsApp**, and **LinkedIn**, as well as perform **Google Searches**, delivering a **Seamless User Experience**.
- **Integrated Real-Time Features** for providing responses to queries such as **Current Time**, **Date**, and **Battery Percentage**, significantly enhancing **User Interaction** and overall **Functionality**.
- **Enabled Seamless Command Execution** via voice, replicating the experience of **Iron Man's Jarvis**, resulting in a **Highly Dynamic** and **Interactive Voice Assistant** with robust **User Engagement**.

MADRAS CLASSIC CAFE | Live Link |
React JS | Tailwind CSS | Framer Motion

- **Designed** the **Madras Classic Cafe** restaurant website utilizing **React JS** and **Tailwind CSS**, ensuring a **Highly Responsive Design** that adapts seamlessly to various devices and screen sizes for an optimal **User Experience**.
- **Integrated Framer Motion** for **Smooth Animations**, including video backgrounds on the **Home** and **Mission** sections, enhancing the visual appeal and **User Experience**
- Featured a **Showcase of Dishes**, **Customer Reviews**, and **Contact Sections**, providing a comprehensive, user-friendly platform for the restaurant's **Online Presence**.

CLICKNBUY E-COMMERCE WEBSITE | Live Link |
React JS | Bootstrap | CSS

- Developed ClicknBuy, an **E-Commerce Website** using **React JS**, **CSS** and **Bootstrap**, featuring a **User-Friendly Interface** that allows users to browse products, add items to the cart, and complete purchases with ease.
- **Implemented Context API** for **State Management**, ensuring a seamless and synchronized shopping experience by efficiently handling the **Cart Functionality** and **User Interactions** throughout the application.
- **Integrated a Fake Store API** to dynamically display a wide range of **Products**, providing a **Highly Responsive Design** and a smooth **Shopping Experience** across all devices and screen sizes.

YOUTUBE CLONE | Live Link |
React JS | CSS | Youtube Api

- Built a YouTube clone using **React JS**, **CSS**, and the **YouTube API** to fetch and display video content dynamically.
- Implemented a **responsive design** that allows users to watch videos, and **filter content** by categories.
- Integrated a **seamless user interface** with video **thumbnails**, **descriptions**, and **playback features** similar to the original YouTube experience.
