PROFILE SUMMARY

"I am an aspiring web developer with a strong foundation in HTML, CSS, and JavaScript. I am proficient in building responsive web applications using Bootstrap, Tailwind CSS, and React.js. I am passionate about creating elegant, user-friendly interfaces and solving complex problems. I am eager to contribute to dynamic projects and collaborate with experienced teams. I have a keen eye for detail and a commitment to writing clean, maintainable code. I am excited to learn and grow in the ever-evolving field of web development."

PROJECTS

PROJECT - 1

Clickn Buy E-Commerce website *(Live Link)*

- Developed a responsive e-commerce website using HTML, CSS, Bootstrap, and React JS, enhancing user experience and accessibility.
- I implemented dynamic product listings by integrating FakeStore API, enabling real-time data fetching and display.
- React JS with Context Hook was used for efficient state management, ensuring seamless user interactions and optimal performance.

PROJECT - 2

Youtube Clone *(Live Link)*

- Developed a fully responsive YouTube clone using HTML, CSS, and React.js, ensuring seamless viewing across various devices.
- Implemented functionality for users to change video categories, providing an intuitive and dynamic browsing experience. Currently, users can only watch videos without additional interaction capabilities.
- Integrated YouTube API to enable users to watch videos directly within the application.
