Professional Summary

Frontend Developer with **2+ years of professional experience** building responsive, accessible, and production-ready web applications using **React.js**, **Next.js**, **TypeScript**, and **Tailwind CSS**. Experienced in architecting scalable UI component hierarchies, integrating complex **RESTful APIs**, managing asynchronous state, and driving technical SEO. Consistently achieves **95% Google Lighthouse** scores through dynamic code splitting and strict compliance with WCAG 2.1 accessibility guidelines.

Technical Skills

Frontend Core: React.js, **Next.js** (App Router, Pages Router, Client Components), **TypeScript**, JavaScript (ES6+), HTML5, CSS3
UI & Styling: Tailwind CSS, Bootstrap, CSS Modules, Responsive Design, GSAP, Framer Motion, Component Modularity
State & API Integration: RESTful APIs, Axios, React Context API, React Hooks, JWT Auth
Performance & Standards: Core Web Vitals, Code Splitting, Dynamic Imports, Lazy Loading, Technical SEO, WCAG 2.1
Tools & Workflow: Git, GitHub, VS Code, Postman, Chrome DevTools

Professional Experience

Frontend Developer – Aryu Enterprises, Chennai **May 2025 – Present**

- Architect responsive, enterprise-grade SaaS client portals and SPAs using **React.js**, **Next.js**, **TypeScript**, and **Tailwind CSS**.
- Build reusable design systems and centralize global state via Context API and custom hooks, **eliminating 30% of redundant code**.
- Integrate multi-endpoint RESTful APIs using Axios with automated error boundaries, custom request interceptors, and optimistic UI updates.
- Achieve **95% Lighthouse scores** via route prefetching, lazy loading, and code splitting.

Frontend Developer Intern – Aryu Enterprises, Chennai **October 2024 – April 2025**

- Translated Figma design specifications into mobile-first, pixel-perfect responsive websites using **React.js** and **Tailwind CSS**.
- Implemented REST API data binding for user authentication, contact pipelines, and dynamic data tables with robust client validation.
- Refactored legacy monolithic components into modular functional units, **improving initial page load speeds by 20%**.

Key Projects

PassATS – AI Resume Builder, Cover Letter Generator & ATS Checker *passats.in | Next.js, TypeScript, Tailwind CSS*

- Architected a full-featured resume platform with **20+ ATS-friendly templates**, dynamic font-family switching, and a dedicated cover letter builder.
- Integrated Python REST APIs for automated ATS diagnostic scoring, contextual keyword analysis, and secure token-based user accounts.
- Implemented the **Razorpay Payment Gateway** client checkout flow for premium template unlocking and automated subscription billing.

InnerPece – Multi-Category Travel Agency & Discovery Platform *innerpece.com | React.js, Tailwind CSS, REST APIs*

- Designed an end-to-end travel agency web portal featuring category-specific landing pages (stays, destinations, tours) with modern Bento-style layouts.
- Engineered smooth, touch-responsive image carousels, destination sliders, and interactive booking modal flows using modular React components.
- Integrated secure booking and authentication APIs, configuring OpenGraph metadata and semantic HTML to maximize organic SEO indexability.

HRMS Dual-Dashboard Platform *React.js, Tailwind CSS, REST APIs*

- Built role-based Employee and Admin web portals handling attendance tracking, leave approvals, and visual metrics reporting.
- Developed high-speed data tables with client-side sorting, pagination, and multi-parameter filtering, reducing redundant API requests.

Aryu Academy & WPWebsiteFix – EdTech Platform & Web Services Portal *aryuacademy.com | wpwebsitefix.com | Next.js*

- Engineered modern Next.js frontend portals for Aryu Academy (tech education platform) and WPWebsiteFix (WordPress optimization and maintenance services) with course discovery catalogs and service intake pipelines.
- Implemented fluid scroll animations and micro-interactions utilizing **GSAP** and **Framer Motion**, achieving a **95% Google Lighthouse** score through route prefetching, asset minification, and on-page SEO.

Education

Master of Computer Applications (MCA) – Dr. MGR University 2021 – 2023 | CGPA: 7.57
Bachelor of Science in Computer Science (B.Sc.) – The New College 2018 – 2021 | CGPA: 6.45
